CAT 2024 Slot 2

CAT 2024 Slot 2 – DILR Set

Answer the questions on the basis of the information given below.

Eight gymnastics players numbered 1 through 8 underwent a training camp where they were coached by three coaches - Xena, Yuki, and Zara. Each coach trained at least two players. Yuki trained only even numbered players, while Zara trained only odd numbered players. After the camp, the coaches evaluated the players and gave integer ratings to the respective players trained by them on a scale of 1 to 7, with 1 being the lowest rating and 7 the highest.

The following additional information is known.

- 1. Xena trained more players than Yuki.
- 2. Player-1 and Player-4 were trained by the same coach, while the coaches who trained Player-2, Player-3 and Player-5 were all different.
- 3. Player-5 and Player-7 were trained by the same coach and got the same rating. All other players got a unique rating.
- 4. The average of the ratings of all the players was 4.
- 5. Player-2 got the highest rating.
- 6. The average of the ratings of the players trained by Yuki was twice that of the player strained by Xena and two more than that of the players trained by Zara.
- 7. Player-4's rating was double of Player-8's and less than Player-5's.

- 1. What best can be concluded about the number of players coached by Zara?
- L. Exactly 3
- 2. Either 2 or 3
- 3. Exactly 2
- 4. Either 2 or 3 or 4
- 2. What was the rating of Player-7?
- 3. What was the rating of Player-6?
- 4. For how many players the ratings can be determined with certainty?
- 5. Who all were the players trained by Xena?
