Note on the Updated Schedule

Please note that the updated schedule includes **three CDC PRO mocks after the release of the CAT 2026 Admit Card**.

This change has been made to help you maximize your final phase of preparation. Once your CAT 2026 exam slot is allotted, we strongly recommend attempting these mocks **in the same time slot** as your actual CAT exam to build familiarity with your exam-day routine and perform at your best.

Additionally, **one of these mocks, OPEN CDC 4, can be attempted from a test center**, giving you an experience that closely replicates your actual CAT journey—from reporting at the center to taking the exam in a proctored environment.

We encourage you to plan these three mocks according to your allotted CAT slot for the most effective preparation.

All the Best!
